

01 Lowland Paddy Seeder (Two types)

Box Type Seeder

Modified Drum Seeder

02 Rice Transplanter  
Manual Transplanter

Semi Mechanized Transplanter

03 Mechanical Weeders

Manual Cono Weeder

Motorized Weeder

03 Irrigation Water Pumps

Axial Flow Water Pump

04 Harvesting & Threshing

Combine Harvester

Reaper Attachment

High Capacity Thresher for  
12 hp Two Wheel Tractor

06 Seed Processing

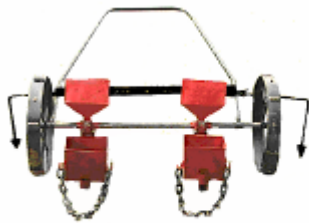

Mini Seed Cleaner

11.10.2 Machines for Other Field Crops

Plant Establishment

01 Seeders

Two Wheel Tractor Coupled Seeder

Seeder for small seeds

## 02 Mechanical Weeders

Swing Blade Type weeder  
(Swiss Hoe)

## 03 Harvesting & Processing

Groundnut Sheller (Manual)

Groundnut Sheller (Motorized)

Onion Seed Processing Machine

Multi Crop Thresher

Pulse Splitting Machine

### 11.10.3 Machines for Horticultural Crops

#### Pruning Tools

For Tall Trees

For Lime

#### 02 Fruit Harvesting Tools

### 11.11 Technology Promoted by Institute of Post Harvest Technology

#### 01 Dryers

- I. Batch type fluidized bed dryer
- II. The IRRI DR-1 Batch dryer
- III. Low cost dryer for grains

- IV. Naphire Mobile flash dryer
- V. Solar Assisted Biomass fired dryer for dehydration of Agricultural Products

- 02 Rice Flaking Machine
- 03 Rice De-stoner for Domestic Use

### **11.12 Technology Promoted by Private Sector**

- 01 Battery operated knapsack type sprayer
- 02 Neem seed solution extractor

### **12. Agricultural Policy**

Recently the Government decided to promote organic farming in order to protect the environment by providing subsidies for all inputs. The Government has also started a scheme for granting duty free concession for the importation of new machinery utilizing advanced technology to utilize environmental protection and industrial pollution management.
